Sprint Planning	Issue Grooming • Prioritize JIRA issues key summary type created reporter priority status labels Jira project doesn't exist or you don't have permission to view it. View these issues in Jira
Patch release naming conventions (6.3 vs 6.2.1)	• Agreed to use 6.3 as release identifier. • Next time, we should better evaluate what naming should be (point release/other release). • Scott created an overview of what is included in 6.3. Larry and others to share with Preston.
Tree Extension Code Merge to LexEVS repository discussion (Update) - Browser Support - 6.2/6.3, etc.	LEXEVS-889 - Jira project doesn't exist or you don't have permission to view it. • Package naming were changed for Tree Extension when factored into LexEVS. • It was the understanding that this change would be in parallel with the next release of browser. • 2.6 browser (in production) to test the 6.3 tree extension. • 6.3 anticipated to be released prior to the 2.7 browser. • Scott to further investigate.
OWL2 Discussion	LEXEVS-852 - Jira project doesn't exist or you don't have permission to view it. • Scott to create new JARS for Rob to test latest changes from Cory.
Mapping Extension Discussion	• During loads - noticed that loads were causing problems. Was able to fix with manifest. Not all inclusive, but this seems to be the problem. • Rob to further test. Scott to send information to Rob.
External End-user support (SNOMED loader issues)	Discussed previously. No further action required by Mayo team. Comment to users to use NCI version.
