

Network Rave Data Standards (NRDS) Content WG

Tina Taylor and Dianne Reeves
May 5th, 2015

Agenda

- Introductions
- Meeting Recap
- Polling Exercise Strategy
- Polling Exercise
- Next Steps

Meeting Recap

- Group agreed that a global library would be a helpful tool to have everything in a central place.
- Discussed the various sets of content for the first set of content to be implemented in Rave. The sets proposed were
 - OPEN Demography
 - Demography
 - caAERS/Rave Integration
 - Adverse Events

Polling Exercise Strategy

- Each representative will provide a vote on which set of content we will plan for the first set of content to implement in Rave.
- Each representative will provide an explanation as to why they chose that set of content.
- Based on the results of the poll we will have two outcomes:
 - Make a decision at this meeting
 - If we have a number of different responses, take back the various votes/explanation, collate the comments and bring back a report for discussion to come to a consensus.

Polling Exercise

Organization/ Representative	OPEN Demography	Demography	caAERS/ Rave Integration	Adverse Events
Alliance Shauna Hillman Katie Allen Ziegler				
COG Thalia Beeles Smita Subramanian				
ECOG-ACRIN Mary Vienneau Tina Taylor*				
NCIC Chad Winch				
NRG Amy Krystkiewicz Rebecca Paulus Vanita Patel				
SWOG Cathy Rankin Angela Smith				
Theradex Peter Clark				

Next Steps

- Capture the decision making process for the polling exercise for lessons learned; post for future review and use
- Provide architect loader spec (ALS) download for the first set of content (each group)
- Confirm the components of the local dictionaries that need to be compared in a gap analysis
- Communicate the group decision to other workgroups
