

# Network Rave Data Standards

## Monthly Bulletin: *April 2017*

### NRDS Project Committee Overview

The Network Rave Data Standards (NRDS) Committee facilitates the standardization and implementation of selected CDEs for use in Rave. The NRDS Working Groups completed review and provided recommendations on standards for Oncology Patient Enrollment Network (OPEN) Demography, Adverse Events (AE), Serious Adverse Events (SAE) and the Clinical Data Update System (CDUS).

### NRDS Project Overview

#### Project Highlights

- Presented NRDS Project to Clinical and Translations Research Operations Committee
- Completed IT impact assessments for the proposed standards
  - AE standards approved
  - OPEN standards will not be implemented at this time due cost/resources and impacts on current NCTN/ETCTN workflows
- Implemented the NRDS AE Standards
- NRDS Standards are available for use by the NCI Community
  - To access the standards, please visit the [NRDS FAQs](#).

#### NRDS Next Steps

- Prepare plan for CDUS implementation
- Identify additional content to standardize
- Perform Quality Assurance as needed
- Educate NCI Community on use of NRDS standards

#### Content WG

- Provided final recommendations on OPEN, AE, SAE and CDUS elements:
  - Agreement to use the same text and answer sets in Rave
- Transitioned to an oversight committee to handle issues as needed

#### Policy and Governance WG

- Completed the [NRDS Policy and Governance Document](#)
- Transitioned to an oversight committee to handle issues as needed

#### Training and Communication WG

- Completed the [NRDS Communication Plan](#)
- Transitioned to an oversight committee to handle issues as needed
