LexEVS Discussion Topics		
Topic	**Discussion Points**	**Action Items**
• JIRA Updates (Craig)	• Decided to move all items not in 6.1 to be moved to "On-Hold" • Can use the fixedVersion field to mark as 6.1.X to indicate.	•
• JIRA 492 (Scott)	• There was an older source for generating a completely different hierarchy. • One was done via streaming and the other in memory. • There is a work around – using 5.1 to do the export. • There is no rush in getting the exporter working in 6.1. • Does not need to go up the tiers. • Will plan to include in 6.1, but will be later in the plan.	• Move to the end of our development cycle. • Now we can push out a bundle.
• Design Document Status (Craig)	• Documentation is available on the wiki, but Mayo is performing an internal review. • Will send out note next week to the NCI team.	• Craig to send out note next week.
• Web Services Fix (Larry)	• Problem identified and fixed in jar would not fix the problem with C#. • The Jar file was for testing and not something meant for internal testing. • If decided to provide a SOAP client, then we need to provide instructions, etc how it could be	• NCPI Linked in Forum. • Email directly with JAR fix. • Capture in JIRA to include in 6.1.

LexEVS Meeting Agenda

	used.	
• Transitive Closure	• Tracy emailed to Scott and Kevin. • Scott looking into the problem	• Kevin and Scott to give update to Tracy.
