LexEVS Discussion Topics					
Topic	Discussion Points	Action Items			
URI Resolution Discussion (Harold)	<ul> <li>Kevin has a URI-o-Matic running today. Open question of how to keep things in sync and how to propagate changes.</li> <li>Should not require changes to LexEVS API.</li> </ul>	<ul> <li>Formalize the schema</li> <li>Include the track change ability.</li> <li>Update the API to include necessary functionality as needed for the service.</li> </ul>			
Architecture review(Craig)	Mandy has DRT access but no VPN. Jason can submit the DRT request for us but will need the link to the Arch document.	Mandy to send Jason the link to the Arch document.			
Package and Deploy to NCI (Craig/Kevin)	<ul> <li>If Mayo has access to dev, we could deploy. We could deploy as WAR file or as a stand alone app.</li> <li>Would like to attempt on dev and test it would work.</li> <li>Would only need systems team involvement if need a new instance.</li> <li>After arch review, we should get more information about how to do the builds, etc (up to QA, Stage, Prod).</li> <li>Kevin will test – drop the war file on Dev and that's all we will need to do for testing (Tracy and team).</li> <li>As dev deployments are done, we</li> </ul>	Create DRT to get DEV access for Kevin, Kim, Linda, Pradip. (Tracy) *similar access to what Scott B has already.  •			

## **LexEVS Meeting Agenda**

Bulk Load Requirements (Craig)	will document the steps so we can share with systems teams.  Received a response form Prashant. Include question about reporting requirements. Friday 12-1 EDT will not work.	Mandy to set up time with Prashant and team. Include Tracy, Larry as optional.
