

caDSR Metadata Development Best Practices

Best Practices

The caDSR Content Team has agreed to curation best practices that outline techniques for efficiently and effectively curating metadata in the caDSR, based on repeatable processes. The Best Practices are intended for metadata curators who have taken the requisite courses in the caDSR training curriculum. Please note - if you have a patient reported outcome or health related quality of life measure, questionnaire, or survey for curation please contact the NCI Curation Team at caDSR.RA@mail.nih.gov.

X - Administered Item(s) related to the best practice

Best Practice	Effective Date	Last Update	Data Element	Data Element Concept	Value Domain
Using Qualifiers in Representation Term and Value Domain Long Names	2/11/2013				X
Specification for the Order of Qualifiers	11/8/2010	8/10/2015	---	X	X
Selecting Preferred Concepts	7/16/2010	11/6/2015	---	X	X
Pre-Coordinated and Post-Coordinated Terms	5/5/2010	9/17/2015	X	X	X
Creating Short Names	2/22/2010	6/8/2015	X	X	X
Versioning Concepts	10/14/2009	6/8/2015	---	X	X
Creating Derived Data Elements (DDE)	9/14/2009	3/10/2014	X	---	---
Creation and Maintenance of Value Meanings (VM) and Value Meaning Descriptions/Definitions (VMD)	7/13/2009	2/11/2013	---	---	X
Using Representation Terms in Value Domains	4/13/2009	5/13/2013	---	---	X
Use of Integer Qualifier Concept (C45255)	2/11/2009	11/12/2012	---	X	X
Linking a Document or Other Resource Materials as caDSR Metadata	4/15/2008	12/8/2015	X	X	X

Best Practice for System-Generated Definitions

When creating a manually-curated definition, the system-generated definition does not need to be saved, and there is no need to notate the definition as "manually curated" or "system generated".

Helpful Hint

To edit content or add comments to this wiki, you need to be logged in using your wiki account. If you do not have a wiki account, please [sign up for an account](#).
