LexEVS	
Report Writer	
Term Browser	Deployment to Stage has been completed and request for 508 scan has been submitted. Provided technical support to Mayo and the Operations team to trouble-shoot a value set hierarchy display issue on the Data-QA tier. The Mayo team identified that the problem was caused by a missing mappings declaration in a value set definition xml file.
NCIm Browser	Deployment to Stage has been completed and request for 508 scan has been submitted.
Term Suggestion Application	Deployment to Stage has been completed and request for 508 scan has been submitted.
EVS REST API	Put in request for new container for the new API. The plan is to leave the current API in place and break off code base for the new API. Completed the elastic search implementation with latest output discussion items. Looking to start the user documentation next week.
