

NBIA at CBIIT Image Collections

Below is a list of collections available from the [NCI CBIIT instance of NBIA](#). When additional meta data or information concerning the scientific value of a collection is included by the data providers it is posted in the links below. If you have any questions please contact John Freymann (freymanj@mail.nih.gov) and Justin Kirby (kirbyju@mail.nih.gov) of the CIP Informatics team.

Completed and Ongoing Collections

Note: The Cancer Imaging Program (CIP) launched The Cancer Imaging Archive (TCIA) in 2011 as a service to the imaging research community. Most of our collections have been migrated to this new archive with improved data quality and expanded patient populations. These collections are marked to indicate this in the table below.
