

Bibliography on EVS and Its Use

This bibliography includes journal articles and other scientific literature about EVS and the explicit use of EVS resources in support of cancer research and related scientific efforts. It does not include materials where EVS resources play an important role but are not explicitly addressed (as often occurs, for example, when use is made of NCI's semantic infrastructure and tooling), or of EVS supported standards maintained jointly with other partners such as CTCAE, FDA SPL and ICSR, and CDISC SDTM.
