caDSR API 4.1.7 Release Notes

October 25, 2018

Improvements

The following are tracker numbers and descriptions of improvements.

Description	JIRA tracker number
Updated the Application Support Email to NCIAppSupport@nih.gov .	CADSR-API-326
Phone Info remains the same (Local: 240-276-5541 OR Toll-Free: 1-888-478-4423)	

Important Remaining Issues

The following are tracker numbers and descriptions of unresolved issues.

Description	JIRA tracker number
Retrieving forms and their classifications using the Rest AP or the GtXML API returns different results.	CADSRA PI-232
When a Data element has multiple designations, the names and type are listed on different rows in the CDE Browser Excel Download, but in the RESTful API with return type CSV, after importing the file into an Excel spreadsheet, all names are merged into one cell, and all name types are merged into another cell.	CADSRA PI-179
CDEs are not classified by individual classification scheme items, so retrieving the CDE by classificationItem is not useful.	CADSRA PI-183

There are also several legacy issues (primarily with the generated RESTful interface) that are not addressed by this release:

- [GF 27833](#) querying indirect association with backslash and rolename does not work
- [GF 27834](#) query which is in the form of A->B->A is not working
- [GF 27835](#) indirect association query, A->B->C, where B and C have to be in the same package, package name cannot be specified for B
- [GF 28093](#) Objects having Indirect association with a backslash in the ID throw an error..
- [GF 28094](#) Performance issues when querying certain objects(503 error)
- [GF 28310](#) HTML queries may return partial results.

Product Dependencies

Refer to the [caDSR Technology Dependency Matrix](#) for the caDSR and other software technologies on which this release of this product relies.

Release History

Release	Date
4.1.7	25 October 2018

4.1.6	18 September 2018
4.1.5	2 March 2018
4.1.4	28 February 2018
4.1.3	March 2017
4.1.2	September 2016
4.1	April 2014
4.0.0.1	April 14, 2009
