PET Imaging Agent NCI CRF Standards: Round 4

This set of content came from the Imaging working group. The first variable to capture an agent given along with the Imaging agent was removed to avoid redundancy; if systemic agents are given along with an imaging agent, those systemic agents will be captured in the Study Agent module, not here. This module focuses on imaging agent activity.

Changes made from November 1st, 2013 to April 7th, 2014

| Module | CDE | CDE Public ID | Change |
|-------------------|-------------------------|---------------|-------------------------------------|
| PET Imaging Agent | Route of Administration | 62589 | Added Additional Value Domain: Pill |

Status

| Pilot |
|---|
| CTROC reviews and approves |
| Biostatistician reviews and approves for Cooperative Groups |
| A participant for each of the NCI cooperative groups approves any content that has changed since |
| Working group reviews and responds to changes from community review and CBIIT staff review content to insure the use of standards. |
| Module is distributed for community review. |
| Working group, with CBIIT curator matches data elements to all questions and achieves consensus on final list of elements |
| Working group reviews and partitions content as Mandatory, Conditional, Optional, or non-harmonized |
| Working group, NCI Cooperative Groups and NCI divisions aggregate and identify common content to retain, resolves discrepancies, and achieves harmonization |
| CBIIT staff collects existing CRFs, and creates an inventory of content |
