

# caArray 038 - caArray Experiment Management

## caArray Experiment Management

**Topic:** caArray Usage

**Release:** caArray 2.0 and above

**Date entered:** 06/20/2009

We developed a series of knowledge base entries to explain how to manage caArray experiment. The topics in this series cover:

- [caArray 022 - Can I change the ownership of the experiment in caArray?](#) *This article explains step-by-step how to transfer ownership of an experiment from one user to another.*
- [caArray 023 - Can multiple users upload microarray datafiles under the same experiment?](#) *This article explains how to configure an experiment so that multiple users can collaborate on data under the same pre-published experiment.*
- [caArray 024 - Does the caArray user account with system administrator role have access to all experimental data?](#) *This article explains the specific privileges granted to the System Administrator role as they pertain to experimental data access.*
- [caArray 025 - Does caArray have version control on uploaded files?](#) *This article explains how caArray does not allow users to upload a file with the same name as a file that already exists in the experiment.*
- [caArrayDemo-002 How to Use caArray to Share Pre-Publishing Data](#) *This article explains how to manage the public visibility of your experiment using a new feature called **Permissions** available in caArray v2.3 and later.*
- [Caarray071 - How do I check if I am actually on caGrid sharing my microarray data?](#) *This article explains how to check whether your caArray data is published on caGrid.*

If you have a comment, please leave your comment in the [caArray End User Forum](#).
