

# Embedding a Google Calendar in a Page

To embed a Google Calendar in a wiki page, use the Google Calendar macro:

1. Type { and the first few letters of the macro name, as follows:

```
{goog
```

2. When the macro browser opens, select **Google Calendar**.
3. Select the macro panel and click **Edit**.
4. In the **Calendar URLs** field, enter the URL of the feed for the calendar.
