

Using this Guide

The *calIntegrator 1.3 User's Guide* is the companion documentation to the calIntegrator software application. The user's guide includes information and instructions for using calIntegrator.

This chapter includes the following topics.

- [Organization of this Guide](#)
- [User's Guide Text Conventions](#)
- [Credits and Resources](#)
- [Application Support](#)

Organization of this Guide

The *calIntegrator 1.3 User's Guide* contains the following chapters and appendices:

- **Using the calIntegrator User's Guide**--This chapter introduces you to the *calIntegrator 1.3 User's Guide* and suggests ways you can maximize its use.
- **1 - Getting Started with calIntegrator**--This chapter provides details about launching calIntegrator, navigating the interface, accessing online help and performing basic tasks.
- **2 - Creating a New Study**--This chapter describes the processes for creating and managing clinical and genomic studies and adding imaging data to studies in calIntegrator.
- **4 - Searching a calIntegrator Study**--This chapter describes the procedures for searching studies within calIntegrator using the search and browse tools.
- **5 - Viewing Query Results**--This chapter describes search results that calIntegrator returns from study queries.
- **6 - Analyzing Studies**--This chapter describes how to use calIntegrator tools to analyze data in clinical or genomic studies that have been deployed in calIntegrator.
- **7 - Administering User Accounts**--This chapter describes the processes for creating and managing user accounts in calIntegrator.
- **A - Data Import Configurations**--This appendix describes how MAGE-TAB documents are parsed, validated and imported into calIntegrator. It also provides examples of the types of MAGE-TAB documents that are compatible with calIntegrator.

User's Guide Text Conventions

The following table illustrates how text conventions are represented in this guide. The various typefaces differentiate between regular text and menu commands, keyboard keys, toolbar buttons, dialog box options and text that you type.

Convention	Description	Example
Bold & Capitalized Command	Indicates a Menu command	Admin > Refresh
Monospace type	Used for file names, directory names, commands, code snippets, file listings, and anything that would appear in a Java program, such as methods, variables, and classes.	URL_definition
Icon	A toolbar button that you click	Click the Refresh button () to update the screen.
Boldface type	Options that you select in dialog boxes or drop-down menus. Buttons or icons that you click.	In the Open dialog box, select the file and click the Open button.
<i>Italics</i>	Used to reference other documents, sections, figures, and tables.	<i>caArray 2.4 Technical Guide</i>
Italic boldface monospace type	Text that you type	In the New Subset text box, enter Proprietary Proteins
Note:	Highlights a concept of particular interest	Note: This concept is used throughout the installation manual.
Warning!	Highlights information of which you should be particularly aware.	Warning! Deleting an object will permanently delete it from the database.
{ }	Curly brackets are used for replaceable items.	Replace {root directory} with its proper value, such as c:\cabio
