

# Init4SD8-NLP Integration

## Pre Interview:

Item	Information/Response
Date:	01/07/2010
Requirement # unique id <SemCon Ops Initiative>.<analysts initials><requirement number> e.g. Init1dbw1 (eventually linked to Use Cases)	Init4SD8
Originator/Customer's Name:	Sharon Gaheen
Originator/Customer's Company:	NCI
Summary of requirement pre-interview, by Reviewer:	The primary actor here is a cancer researcher who does not know the technical nitty gritty of grid. The business goal is to make the searches on the grid natural language based. caBIG tools should interface with a Natural Language Processing based search engine that can crawl on caGRID and come up with answers to questions based searches rather than key words searches.
Recommended Next Step Enter one: Follow-up interview, Observe, Use Case Template (text), Use Case Model (formalized/UML diagram), Group Discussion, Prototype, Waiting Room	Observe
