

Links

When you create a link that points to a wiki page, the best type of link to create depends on where you intend to create that link:

- If you intend to create the link *within the wiki*, refer to [Linking from a Wiki Page to a Wiki Page](#).
- If you intend to create the link *outside of the wiki*, refer to [Linking from Another Website to a Wiki Page](#).

When you create a link within the wiki that points to another website, refer to [Linking from a Wiki Page to Another Website](#).

This page family includes the following:

- [Linking from a Wiki Page to a Wiki Page](#)
- [Linking from Another Website to a Wiki Page](#)
- [Linking from a Wiki Page to Another Website](#)
- [Marking Links as External to US Government](#)
- [Linking to a Specific Place on a Page](#)
- [Putting a List of Child Pages on a Page](#)
- [Putting a Table of Contents on a Page](#)
- [Listing Links So Only Users with Permission Can View Them](#)

Also refer to the following pages:

- [Linking from an Image to Another Page](#)
- [Uploading and Linking to an Attachment](#)
- Atlassian help page:

[Links](#) 

Key point for accessibility: Each link on a page must be unique.
