

Linking from an Image to Another Page

To link from an image to another page

1. In the page you want to change, click **Edit**.
2. Insert the image as described in [Inserting an Image](#).
3. Select the image. The image properties panel (a row of buttons) appears.
4. Click **Link**. The Insert link dialog box appears.
5. Specify the link destination as described in [Links](#).

We inserted the following example image and linked it to the NCIP web home page, as explained in the preceding steps.
