## Progress

Immedia te Prio ritie s (Cor y, Sco tt)	Status: Work done this week Face to Face, Test Scripts, Loader test script, started on the namespace for tree extension, Scott to do further testing on Production.		
Fac e To Fac e plan ning ( Crai g)	Confirmation for caDSR folks. Denise W. uncertain. ISO, Micheal Woodcock, Jacob, Yeon, Sarah Elkins, Tin, Preston, Tracy, Kim, Si Chen to be contacted for deployment issues. Kevin and Harold to be around for Value Set Discussions next week. RDF Sparkle to be added as a discussion topic in the value set section. Design Value Set discussion to be centered around both services. No way of picking FDA, CDISC code sets out of the triple store at NCBO at the triple store right now. This feature users of the NCBO sparkle endpoint. Kevin needs to keep this in mind as NCBO development continues. Design advice is wanted from Harold about how to achieve content in triple store i.e. how can you see this content as FDA, CDISC content. Big Five Tech companies want the content over the triple store. Documentation to be added to the Forum discussion. OBO loader to be dropped from Loader discussion. Office space has been secured. JJ and Kumar to attend most events Si Chen also to attend the caDSR meeting? Larry to create a set of all day Webex's for the meetings.		
6.1 Dep loy me nt (Jas on, Sco tt)	Production seems to be in good shape now. Still a lingering issue around Mechanism of Action. The issue of the security waiver for 5.1 is still current.		
JIR A ITE M 227 : M ax Cla use Cou nt (Sc ott)	Rare characters are an issue as well as number of wild cards. Scott to update the JIRA item around setting flag for when this breaks.
