

LexEVS Meeting Minutes - 16 April 2014

Attendees

Name	Role	Present
Wright, Larry	NIH/NCI	x
Fragoso, Gilberto	NIH/NCI	
De Coronado, Sherri	NIH/NCI	x
Safran, Tracy	NIH/NCI	x
Ong, Kim L	IS	x
Lucas, Jason R	IS	x
Bauer, Scott	Mayo	x
Stancl, Craig	Mayo	x
Endle, Cory	Mayo	x
Wynne, Robert	NIH/NCI	x
Pan, JJ	NIH/NCI [E]	x
Tran, Tin	NIH/NCI [C]	x
Ahmed, Shamim	NIH/NC [C]	
Haber, Margaret	(NIH/NCI)	
Roth, Laura	(NIH/NLM)	
Ramani, Vivek	(NIH/NCI) [C]	
Carlsen, Brian	(NIH/NCI) [C]	
Wong, Joanne		x
Kuntipuram, Kumar		x

Action Items

#	Assigned	Description	Date Identified	Due Date	Date Completed	Status
64	Scott	To follow up on URI's on OWL2 with Harold.				on hold
136	Scott	Point the CTS2 API page to PROD (wiki) - originally planned on Stage, but now planning on PROD.				open
139	Kumar	To do an analysis of the Project plan for budgeting purposes.				open
140	Scott	Update struts jar to 2.3.16				in progress
149	Scott	Contact Jacob about X11 access on DEV				done
150	Scott	Document URI Resolver more thoroughly				done
151	Scott	JIRA Item to move master to lexevs/lexevs				open
152	Craig	Schedule project plan/roadmap meeting.				open
153	Craig	Send JJ project plan and update email list for future emails.				open
154	Larry	Provide an email update to NCBO, NLM, and Mayo with current activities and what has been built.				open

Progress

Immediate Priorities and Problems (Mayo Team)	<p>Scott: CTS2 6.1 Service Deployment, 6.1.1 Struts update, CTS2 Service Updates - Value Set Modules and CTS2 1.1 Based Framework</p> <ul style="list-style-type: none"> 6.1.1 Struts update - Scott generated testing reports and need to give those to Tin. CTS2 6.1 Service Deployment - URLs are pointing to stage. 1.1 Based Framework - updates based on code review and issues identified (search and value set coding scheme and version). UI and CTS2 deployment - planning to get configured over the next week. Testing distributed mode for CTS2 services. There will be documentation/code sample changes for the 1.1 based CTS2 framework services. <p>Cory: CTS2 Client UI, Informatics Deployment</p> <ul style="list-style-type: none"> NLM services (1.0 based) and transforming to the 1.1 based client. This is complete. Next need to incorporate the NLM authentication. Search has been included in the client to allow users to search on value set names. Informatics configuration is planned and hope to have deployed in next week or 2. <p>Craig: Project Plan Updates</p> <ul style="list-style-type: none"> Add JJ to the project plan list Schedule meeting with Sherri, Larry, Kumar, JJ to discuss project plan and roadmap. Tech Stack and associated dependencies. Identified by JUnits once components are upgraded. 		
caDSR and Value Set and other URIs (Weekly Status)	<ul style="list-style-type: none"> No updates this week. 		
Continuing Development through next fiscal year (Kumar)	<ul style="list-style-type: none"> Will provide more details during planning meeting. 		
Max clause count issue (update)	<ul style="list-style-type: none"> Scott checked with Kevin about the proposal for Tracy to change to 800K. Kevin said this is defaulting to 1000 in Lucene - anything above that is undefined. No idea how things will perform. Tracy did test on Data QA by incrementing 100k at a time. Tracy will continue to evaluate - better than having it fail for the user. Scott could evaluate as well, but this is lower priority for now. NCI will evaluate now. 		
NCI, NLM, NCBO and Mayo Planning (Monthly Meetings, Face to Face)	<ul style="list-style-type: none"> Provide an email update with current activities and what has been built. (Larry) No interest in monthly (at this time). Face to Face could be discussed. (June/July or September) 		
Struts 6.0 Update	<ul style="list-style-type: none"> Not an immediate task. Users should be able to move from LexEVS 6.0 to LexEVS 6.1. If LexEVS 6.0 were to get shut down, then this could come back as a higher priority. 		
URI Resolver Documentation	<ul style="list-style-type: none"> Updated and available here: LexEVS 6.1 Design Document - Detailed Design - CTS2 REST Services#DetailedDesign-CTS2RESTServices-5URIResolution 		
UMLS Mapping Files	<ul style="list-style-type: none"> Tracy cannot get that to load - Mappings. Tracy to send Scott the details and he can take a look. 		
FDA Codes (REST service)	<ul style="list-style-type: none"> ISO Country and Region codes in Meta and retrievable via advanced search. Need to figure out how to make available to FDA users - possible REST call that would pull out content and return via a REST call. Would use CTS2 LexEVS services to pull this content. Can currently can do an advanced search. If created as a Value Set, then possible to use CTS2 resolved value set services. NCI will continue to look at this. Can provide weekly updates. 		

JIRA Issues

Project Plan Changes

#	Description	Due Date	Resources	Notes	Risks	Mitigation
	None					

Planned Activities

Area of Interest	Details
VSMC definition	Need a dialog defining module use around ResolvedValueSets
Update LexEVS CTS2 Service to CTS2 1.1	Need deployment tests
Work on a variety of EVS JIRA Priorities	Scripting, convenience methods, tree extension namespace issues

Risks, Issues, Dependencies

Risks

#	Opened Date	Due Date	Description	Likelihood (H, M, L)	Impact	Assigned	Status	Mitigation Strategy

Issues

#	Opened Date	Description	Impact	Assigned	Status
