Progress

Immediate Priorities and Problems (Mayo Team)	<p>Scott: Loader testing against, MetaBrowser Update, PTE</p> <ul style="list-style-type: none"> Finishing the PTE. Needs to discuss with Jacob. Metabrowser Extension - needs to be discussed (Java 1.7). Has been at Java 1.5 for quite some time - and apparently does work. Currently does compile at 1.7. Scott will continue the update to 1.7. <p>Cory: Working JIRA #'s 371, 538</p> <ul style="list-style-type: none"> 371 - retrieve active/inactive concepts through REST services - and API. <p>Craig: Project Plan Updates, NLM Demo Meeting, September F2F</p> <ul style="list-style-type: none"> NLM Demo (August 26). Mayo team to show VS Client Demo and NLM Triplestore Project. Possible date could be early September to include Harold. F2F meeting could be held later. Onsite deployment still to be considered. 		
caDSR and Value Set and other URIs (Weekly Status)	<p>Scott started to look at case-sensitivity for URI Resolver. For now, no further investigation.</p> <p>For now, URIs will be in lower case.</p>		
Dev DRT request	<p>SSH connection - resolved and Scott can log on.</p> <p>Scott was able to look at the system. Nothing is started - Scott will send Jacob a version of the PTE today. Jacob will get the server up and running (with help of Scott).</p>		
Test Plan and checklist for moving from Dev to QA	<p>Need to Identify responsibility for creating the test plan and associated dates.</p> <p>QA will do the test plan. A different test plan template will be created for Agile. This will be part of the Agile process. Up front work can be done in order to help with this process.</p>		
Plans for the future of caCORE webservice.	<p>Perhaps leave this in for this iteration.</p> <p>This would require additional testing. Also, not sure of usage (external) - there is no certainty on who is using.</p> <p>No action required for this release. To be revisited in 6.3.</p>		
Discussion of JIRA #597	<p>CTS2 Association Graph: Proposed as a CTS2 Specification implementation.</p> <p>Given the current timeline, we will postpone this item - move to 6.3.</p> <p>Scott to look at question from Gilberto in the Jira Item and provide comment as to how implementation could be done.</p>		
Agile discussion	<p>Agile Team Structure - NCI and Mayo teams and the roles associated to each team in order to support Agile.</p>
