

LexEVS 6.1 Proposal - Other - O.7

Part of document: [LexEVS 6.1 Proposed Scope Items](#)

Enhancement

Better support for "Metathesaurus" data structures (e.g. accessing source hierarchies in NCI-META)

- Assumption: This would be an update to the metabrowser extension to be able to traverse the individual source hierarchies given the Metathesaurus structures.

Tasks to Complete

- Create a few new qualifiers for the Metathesaurus load.
- Update the Metathesaurus extension.
- Verify behavior against all possible scenarios within Meta.
- Load MRHIER

Estimated Effort

- 3 weeks for 1st 3 bullets
- 2 weeks for MRHIER load
