

LIDC to AIM 3.0 Conversion Effort

The objective of the LIDC to AIM 3.0 Conversion is to convert all LIDC annotations to AIM 3.0 format and have them displayed on ClearCanvas which supports AIM 3.0 schema.

This page will server as the index page which links all artifacts generated in this conversion process.

See attached spreadsheet for a list of AIM model changes and questions and tasks associated the model changes for LIDC to AIM3.0 conversion.
