

Finding All the Pages Created by One User

To find all of the pages created by a particular user, you have the following options:

- Perform a Confluence Full Search for those pages and filter by creator ([example](#)), as described in the following Atlassian help page:

<https://confluence.atlassian.com/conf613/search-964961041.html> 

- Use the Content by User macro to list all the pages created by one user:

<https://confluence.atlassian.com/conf613/content-by-user-macro-964960798.html> 

The page displays a table listing all the pages created by the user.
