## Project Scope

The **purpose of this document** is to collect, analyze, and define high-level needs and features of the National Cancer Institute Center for **LexEVS Release 6.4**. This document focuses on the functions proposed by the product stakeholders and target users in order to make it a better product.

## Vision and Needs

The **objective of this release** of the LexEVS is to provide a bug fixes and a set of new features as captured in the document.

## Functional Requirements

Each enhancement, modification or new feature is described in detail below.

| JIRA number (hyperlinked)                                                         | Project | Status<br>(Approved or Proposed) | Iteration |
|-----------------------------------------------------------------------------------|---------|----------------------------------|-----------|
| <div><a href="#">LEXEVS-868</a> - Getting issue details...<div>STATUS</div></div> | LexEVS  | Approved                         | 6.4       |

## Functional Bug Fixes

Each bug fix included in this release is described in detail below.

NOTE: This is a dynamic query. Issues will be reviewed and prioritized to be considered during Sprint planning.

| key                                                                                                                                                                                                                               | summary | type | status | resolution | fixVersion | labels |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|------|--------|------------|------------|--------|
| <div><div> Jira project doesn't exist or you don't have permission to view it.</div><div><a href="#">View these issues in Jira</a></div></div> |         |      |        |            |            |        |

## Support Requirements

This section describes in detail all the support requirements which must be met for this release.

| JIRA number (hyperlinked)                                               | Project | Status<br>(Approved or Proposed) | Iteration |
