

# caNanoLab Integration with Elsevier

caNanoLab has established a direct reciprocal link between datasets and associated research articles published by Elsevier. For additional information on the caNanoLab integration with Elsevier, refer to the [Elsevier Press Release](#) describing the reciprocal link between research articles and datasets.

The current list of Elsevier journals that offer reciprocal linking include:

- Biomaterials
- Cancer Letters
- European Journal of Pharmaceutical Sciences
- International Journal of Pharmaceutics
- Journal of Controlled Release
- Materials Science and Engineering: C
- Nanomedicine
- Toxicology and Applied Pharmacology
- Toxicology Letters
- Ultrasound in Medicine and Biology

Elsevier journals that will offer reciprocal linking in the near future include:

- Acta Biomaterialia
- Analytica Chimica Acta
- Analytical Biochemistry: Methods in the Biological Sciences
- Biochemical and Biophysical Research Communications
- Biochemical Pharmacology
- Biosensors and Bioelectronics
- Carbohydrate Polymers
- Clinical Biochemistry
- Colloids and Surfaces A: Physicochemical and Engineering Aspects
- Colloids and Surfaces B: Biointerfaces
- European Journal of Cancer
- European Journal of Cancer Supplements
- European Journal of Pharmaceutics and Biopharmaceutics
- Journal of Colloid and Interface Science
- Journal of Magnetism and Magnetic Materials
- Magnetic Resonance Imaging
- Molecular and Cellular Probes
- Pharmacological Research
- Photoacoustics
- Sensors and Actuators B: Chemical
- Talanta
- Toxicology in Vitro
