

# Filtering Search Results Lists - Include v4.4

To filter the search results, in the **Search** field, type one or more characters contained in any of the fields. The list is filtered as you type subsequent characters.

For example, in the figure below, the results list has been filtered to display only trials that contain "004" in the NCI Identifier.

Search Results

Show 10

Search: 004

<< < 1 > >>

First Name	Last Name	E-Mail	NCI Identifier	Lead Org ID	Receive Email?	Action
Isabelle	Autissier	anthonel@mail.nih.gov	NCI-2014-00499	LEADORGID 123 K	<div>Yes</div> <div>No</div>	<div>Remove</div>
Lauren	Anthone	example@example.com	NCI-2014-00454	LeadMay21	<div>Yes</div> <div>No</div>	<div>Remove</div>

Adding one more character, as shown below, filtered out the remaining trial because the number "9" was not included in the NCI Identifier.
