Agenda

Sprint Status	**Current Sprint** - Sprint 45 (December 8, 2016 – December 21, 2016)
	16X237 Agile Development - Sprint Status#16X237AgileDevelopment-SprintStatus-Sprint46

LexEVS Java 1.8 environment • Status update: Jason	Discussion Points: • No updates. Jason is out this week. • Jacob will be setting up the CentOS 7 VM with Java 8 when he returns next week. Decision Points:
MySQL 5.6 instance requested • Status update: Scott	Discussion Points: • Scott has set up the test harness on NCI DEV and will be running the tests to get the baseline numbers. • Scott has run into a couple of exceptions that he will investigate further. These issues will not affect the tests. Decision Points:
Lexevs stress test set up • Setup status: Cory	Discussion Points: • The groovy scripts have been modified and are almost ready to run/test. • Once the scripts are ready, Cory will attempt to replicate the thread issue we saw on PROD. Decision Points:
6.4.1.3 Snapshot build update	Discussion Points: • LexEVS 6.4.1.3 Release Notes • There is a Value set fix that is in this release. We suggest not using the value set load for this snapshot. • LexEVS 6.4.1.3-SNAPSHOT has been manually published to the Nexus server. • LexEVS 6.4.3.1-SNAPSHOT has not been tested by the NCI team yet. Tracy will install and test. Decision Points:
NCI Nexus Server Migration Update	Discussion Points: • Phil sent a test user/pw with the same credentials as our service account to Cory to test. • Cory can publish the CTS2 Framework maven project to ncimvn dev with these credentials. However, our main service account id still doesn't work. • Cory will be working with Phil to resolve this. Decision Points:
OBI Load • Update from Gilberto	Discussion Points: • ⚠ LEXEVS-2503 - Jira project doesn't exist or you don't have permission to view it. • Gilberto will send the other issue to the OBI team. • We will discuss next week when Gilberto is back. Decision Points:
LexEVS External Users	• Larry mentioned the transform project (2010-2015) exploration of technology (European group) ○ Indications are that they switched from LexEVS to BioPortal.
