Decision Points:

- ⚠ LEXEVS-1108 - Jira project doesn't exist or you don't have permission to view it.

  - Kim has a work around for the browser.
    - He is basing it on the length of the version.
  - This would still be useful to everyone else.
  - Priority 2.

- ⚠️ [LEXEVS-2253](#) - Jira project doesn't exist or you don't have permission to view it.
  - Now that indexes are separated into their own directories and in the DB, we should be able to perform multiple loads at the same time.
  - Related to LEXEVS-1413 and LEXEVS-1157.
  - Priority 2

- ⚠️ [LEXEVS-1626](#) - Jira project doesn't exist or you don't have permission to view it.
  - Would like a decent message that the SAB is incorrect and the tables should be cleaned up.
  - Look into checking the SAB file first by parsing it and verify it is correct. If it's invalid, stop.
  - Priority 1

- ⚠️ [LEXEVS-1413](#) - Jira project doesn't exist or you don't have permission to view it.
  - Related to LEXEVS-2253 and LEXEVS-1157.
  - Priority 2

- ⚠️ [LEXEVS-2131](#) - Jira project doesn't exist or you don't have permission to view it.
  - We initially agreed to increasing the length from 250 to 1000.
  - Tracy agrees that the above solution will still work.
  - Priority 3

- ⚠️ [LEXEVS-1109](#) - Jira project doesn't exist or you don't have permission to view it.
  - This can be closed as not an issue anymore.

- ⚠️ [LEXEVS-2460](#) - Jira project doesn't exist or you don't have permission to view it.
  - These warning issues are a lot of noise. It would be good to not surface these warnings.
  - Priority 3

- ⚠️ [LEXEVS-1111](#) - Jira project doesn't exist or you don't have permission to view it.
  - LexEVS 612 - Clean DB Script.
    - If LexEVS 612 is working, it would satisfy the issue.
  - This cleanup should be done at the end of the load.
  - Priority 4

- ⚠️ [LEXEVS-879](#) - Jira project doesn't exist or you don't have permission to view it.
  - We are not sure if this is still an issue. We will need to investigate
  - Priority 2

- ⚠️ [LEXEVS-2586](#) - Jira project doesn't exist or you don't have permission to view it.
  - Currently working on.
  - Priority 1
- ⚠️ [LEXEVS-1157](#) - Jira project doesn't exist or you don't have permission to view it.
  - Related to LEXEVS-1413 and LEXEVS-2253.
  - Priority 2
- ⚠️ [LEXEVS-812](#) - Jira project doesn't exist or you don't have permission to view it.
  - Preferably, remove old tag (if exists) and add the tag to selected coding scheme version.
  - Priority 1
- ⚠️ [LEXEVS-2585](#) - Jira project doesn't exist or you don't have permission to view it.
  - This would be useful.
  - Priority 1
- ⚠️ [LEXEVS-2020](#) - Jira project doesn't exist or you don't have permission to view it.
  - The method should not return null, It will always return a Boolean value.
  - This should be handled on the OWL2 loader.
  - Priority 3
