Agenda

Sprint Status	**Current Sprint** - Sprint 47 (January 5, 2017 – January 18, 2017) 16X237 Agile Development - Sprint Status#16X237AgileDevelopment-SprintStatus-Sprint47
LexEVS Java 1.8 & MySQL 5.6 Environment • Status update: Jason	Discussion Points: • Jacob mentioned that they were waiting for the DB specialist. • He is anticipating this to be completed next week. Decision Points:
6.4.1.3 Snapshot build update	Discussion Points: • LexEVS 6.4.1.3 Release Notes • A snapshot was created in sprint 47 with a couple fixes. These fixes can be found here: ○ 16X237 Agile Development - Sprint Status#16X237AgileDevelopment-SprintStatus-16X237AgileDevelopment-SprintStatus-Sprint47 ○ Rob will verify the current issues in our next snapshot build. Decision Points:
NCI Nexus Server Migration Update	Discussion Points: • LexEVS Build Configurations and Status • Cory has now been able to publish to the NCI Nexus server with the Ant script. Decision Points:

Value Set Architecture Update	Discussion Points: • The Mayo dev team will be meeting with Kim tomorrow to continue gathering requirements. Decision Points:
Transitive OWL Discussion • Blank Nodes • Implementation Considerations	Discussion Points: • ⚠ [LEXEVS-2585](#) - Jira project doesn't exist or you don't have permission to view it. • ⚠ [LEXEVS-2651](#) - Jira project doesn't exist or you don't have permission to view it. • Scott has been researching how blank nodes are handled with respect to transitive closure in OWL. • Larry mentioned that role group is being lost in the LexEVS model. • We can remove the anonymous nodes in transitive closure. They will still be available in the API to the browser. Decision Points: • Scott will create JIRA issues to remove anonymous nodes from transitive closure. • Better understand role group and any use cases associated with it.
echache issue	Discussion Points: • This was an outside user that accessed the NCIT through a search and the page didn't load. • Others tested this and it worked fine. • However, Larry saw it happen again today searching on the term browser. • This failed initially on Chrome (was also seen in IE, FF, and Chrome). • Scott mentioned that there may have been some invalid text in the history API. • Kim suggested that this didn't have anything to do with the history API. • This was seen on the PROD server. • This issue was seen on the NCIT. Decision Points: • Rob to request the container to be restarted.
caCORE follow up	Discussion Points: • We followed up with Bob Kline and mentioned that the CTS2 service returns the same data but in a different format. • The lexevs API URL can be modified so it doesn't change. Decision Points:
CTRP Thread Issue • Cory to update	Discussion Points: • This issue has been resolved. • The fix has been put into the 6.4.2 branch. Decision Points:
LexEVS External Users	Discussion Points: Decision Points:
Proposed Backlog Review Items	Discussion Points: • https://tracker.nci.nih.gov/issues/?jql=labels%20%3D%202015.12.Face2Face%20and%20status%20%3D%20Open Decision Points:
