LexEVS Meeting Minutes - 2017.02.01

Attendees

Name	Role	Present
Wright, Larry	NIH/NCI	x
Fragoso, Gilberto	NIH/NCI	x
De Coronado, Sherri	NIH/NCI	
Safran, Tracy	NIH/NCI [C]	x
Ong, Kim L	IS	x
Lucas, Jason R	IS	x
Bauer, Scott	Mayo	x
Stancl, Craig	Mayo	x
Endle, Cory	Mayo	x
Wynne, Robert	NIH/NCI [C]	x
Tran, Tin	NIH/NCI [C]	x
Carlsen, Brian	NIH/NCI [C]	
Wong, Joanne	NIH/NCI [C]	
Kuntipuram, Kumar	NIH/NCI [C]	x

Action Items

Assigned	Description	Date Identified	Due Date	Date Completed	Status
Cory	Add link to Maven Opts for end users	2016.12.21			Open

Agenda

Sprint Status	**Current Sprint** - Sprint 48 (January 19, 2017 – February 1, 2017)
	16X237 Agile Development - Sprint Status#16X237AgileDevelopment-SprintStatus-Sprint48
	- Our issue backlog will be updated to use "Release Priority" instead of the current labels P1, P2... - Tracy suggested to also add a value for "effort" for an issue. We may be able to use story points for this.
LexEVS Java 1.8 & MySQL 5.6 Environment Status update: Jason	Discussion Points: - MySQL 5.6 is installed. Justin will be loading data on it. - Java 1.8 environment - Jason said we are still waiting for it to be provisioned (by next week). Decision Points:
Road map to 6.4.2 release	Discussion Points: - Many of the remaining backlog issues are not loader or UI fixes. They will need to be put into the next major release. - Gilberto mentioned that Java 7 is still valid through the end of the year. - We will need to have 6.4.1 and 6.4.2 running in parallel while users upgrade. - Kim agreed that the tree extension issues can wait until after the 6.4.2 release. Decision Points: - We should go forward with Java8, CentOs 7 and MySQL 5.6 - Data Services will be removed in 6.4.2.

6.4.1.3 Snapshot build update	Discussion Points:
	- LexEVS 6.4.1.3 Release Notes - Tracy found an issue with the value set resolution script when loading the Thesaurus with OWL2. - Tracy will try loading the Thesaurus with OWL1 and then try the value set resolution again. - Scott will also, test loading the Thesaurus with OWL2. Decision Points:
NCI Nexus Server Migration Update	Discussion Points:
	- LexEVS Build Configurations and Status - User name and Passwords are now being encrypted when publishing artifacts with Ant. - At this point, NCI Nexus work is complete for LexEVS. Decision Points:
eCache issue update	Discussion Points:
	Jacob sent Scott access to all of the logs on Stage and Prod. This will allow him to search the logs when someone hits this issue again. Decision Points:
caCORE follow up - lexevs API URL - Follow up with Bob regarding data services	Discussion Points: - https://lexevsapi6-dev.nci.nih.gov/ - All lexevs 6.x releases will have this URL. - We will need to determine what changes will prompt us to change the URL to 7. Decision Points: - This URL is working on DEV and will move up the tiers. - Tracy will follow up with Bob and let us know if she needs anything from the dev. team
CTRP Thread Issue Data Services discussion	Discussion Points: Decision Points: - Mayo team will create a description of the data services and URLs that will be going away. - Mayo team will create a wiki page of how to transition from Data Services to CTS2 REST services. - Larry will use this to send out a notification to LexEVS users.
LexEVS External Users	Discussion Points: - There was a meeting with Marry Dobbins, the Mayo team and the an NCI value set editor. - Mary requests a couple items: - History mechanism - FDA version of the presentation - The Mayo team will meet with Mary today to better understand her needs. Decision Points:

OWL Issues from Rob	Discussion Points: - ⚠️ **LEXEVS-2677** - Unable to contact site specified: [Ljava.lang.Object;@72989f49 - ⚠️ **LEXEVS-2675** - Unable to contact site specified: [Ljava.lang.Object;@72989f49 - ⚠️ **LEXEVS-2676** - Unable to contact site specified: [Ljava.lang.Object;@72989f49 - Gilberto suggested that all 3 issues should be a priority 1. Decision Points:
OMG artifacts resolution	Discussion Points: - Our CTS2 services had issues when starting up. - We have WSDLs from OMG. - There was an issue where OMG switched ISPs. - It appeared that there were caching issues, but they cleared up by themselves and everything is running fine again. Decision Points:
General Priority of Backlog Items	Discussion Points: - 6.4.2 (Java 8 focus) - API level updates on 6.4.1 Decision Points:
Tree service and Namespace issue	Discussion Points: - Scott discussed the issue that Kim was seeing. Decision Points: - Scott will start an email thread on the manifest issues. - Include Tracy, Rob, and Kim.
Proposed Backlog Review Items	Discussion Points: Decision Points:

Team Absences	Mayo Team
	
	- Cory -
	- Scott -
	- Craig -
	
	NCI
	
	- Tracy
	  - Feb 21-24
	- Rob
	  - Feb 17
	  - March 20-24
