

Trial Processing Statuses

The following table provides the definitions of each of the statuses that occur during the course of the trial processing work flow. The diagram (after the table) illustrates the work flow so that you can see the relationships between the trial statuses.

Trial Processing Status	Definition
All	Any processing status.
Submitted	Original trial submitted but not validated.
Amendment Submitted	Amendment submitted but not validated.
Accepted	Trial passed validation.
Rejected	Trial did not pass validation. These trials are displayed in PA but not in trial search results in the Registration application.
Abstracted	Trial has been abstracted.
Verification Pending	Trial has been abstracted, and the Trial Summary Report (TSR) has been sent to the trial submitter for abstraction verification.
Abstraction Verified Response	Submitter has verified the abstraction as per the TSR, and has returned feedback to the CTRO within five business days after receiving the TSR. (A business day is any weekday that is not a Federal holiday. For a list of Federal holidays, refer to the U.S. Office of Personnel Management's list of Federal Holidays .)
Abstraction Verified No Response	Submitter has not responded or returned verification feedback to the CTRO within five business days after receiving the TSR.
On-Hold	Trial has been delayed, or there is not enough information to process the submission.
Submission Terminated	Trial processing has been terminated in PA. (For example, a Registration application user may have requested termination.) These trials are displayed in PA but not in trial search results in the Registration application.
Submission Reactivated	Trial processing has resumed in PA.
