

Searching for Diseases from the Toolbar - Include v4.4

You can search for diseases by name or code directly from the toolbar. For instructions for selecting diseases, for example, when you add or edit a study subject record, refer to [Selecting Diseases for Study Subject Records](#).

How to Search for Diseases from the Toolbar

1. On the toolbar, click **Disease Search**.
The Search Diseases window appears.

Search Diseases

Disease Name: myel

Disease Code:

Disease Code System: SDC

Search

Cancel

2. In the **Disease Name** field, type part or all of the disease/condition or site being studied, or, in the **Disease Code** field, enter part or all of the disease or site code.

Search tips

Enter as many letters of the disease/condition name as possible to reduce the number of search results. The system adds wildcards on both sides of the search string (the series of letters you type) for you implicitly. You can type wildcard symbols (%) between characters of the string as necessary.

The following table lists codes for disease not specified, healthy volunteer, and donors:

Category	ICD-10	SDC	ICD9	ICD-O-3
Disease not specified	Z1000	80000001	V100	7001/1
Healthy volunteer	Z76.3	80000000	V99	7002/0
Donors	Z52.9	(NA)	(NA)	(NA)
Unknown Primary Site	(NA)	(NA)	(NA)	C80.9

3. From the **Disease Code System** drop-down list, select one of the following:
 - **ICD-9** (International Classification of Diseases, 9th Revision)
 - **ICD-10** (International Classification of Diseases, 10th Revision)
 - **ICD-O-3** (International Classification of Diseases for Oncology, 3rd Edition)
 - **SDC** (CTEP's Simplified Disease Classification)
4. Press **Enter**, or click **Search**.
The system searches for the disease/condition or site in the database, and returns a list of results.
