

Using My Favorites

Access to My Favorites

If you are logged into caNanoLab, you can add samples, protocols, and publications to My Favorites and then manage those items from one page. (For instructions, refer to [Bookmarking a Sample to My Favorites](#), [Managing Protocols in caNanoLab](#), and [Managing Publications in caNanoLab](#).) My Favorites is like bookmarking for easy access.

This chapter describes how to use My Favorites. Topics in this chapter include:

- [My Favorites](#)
 - [My Favorite Samples](#)
 - [My Favorite Protocols](#)
 - [My Favorite Publications](#)

My Favorites

When you log in and click **My Favorites**, all of the samples, protocols, and publications that you bookmarked and added to My Favorites are listed on one page. You can view, edit, and remove these items from the My Favorites list.

Removing from Favorites

If you click **Delete from Favorites**, you need to confirm the removal, and then the favorite is removed from the table. It is **NOT** removed from the database, only from the My Favorites list.

You can adjust what items are listed on My Workspace with the **Samples**, **Protocols**, or **Publications** boxes at the top of the page.
