

Recording Trial Identification Information in Registration - Include 20170907

How to Complete the Trial Identifiers Section

In the various fields, specify the appropriate information. The following procedure describes the fields. All fields except the ClinicalTrials.gov Identifier are required.

1. Click **Please Select the Lead Organization**.
A list of organizations that are principal administrative organizations responsible for the study appears.
2. Select the organization from the list.
3. If the lead organization is not listed, click **Search**, and follow the instructions in [Searching for Organizations](#).
4. Enter the **Lead Organization Trial Identifier**, the unique identification used to identify, name, or characterize the protocol document, exactly the same as it appears in the protocol document. For Inter-Group trials, type the Lead Group's trial number. For multi-site trials that have no assigned single center, use the protocol ID.
Example: NSABP-B-40
5. Click **Please Select Submitting Organization**.
A list of affiliated organizations appears.
6. Select the organization from the list.
7. If the submitting organization is not listed, click **Search**, and follow the instructions in [Searching for Organizations](#).
8. Enter the **Submitting Organization Local Trial Identifier** exactly the same as it appears in the protocol document.
9. Optionally, enter the number assigned to the trial by PRS (ClinicalTrials.gov).
