

2017-09-27 Retrospective - Sprint 65

Date	27 Sep 2017
Participants	Bauer, Scott (NIH/NCI) [C] , Endle, Cory (NIH/NCI) [C] , Unknown User (standlcr2)

Retrospective

What did we do well?

- Managed absences and availability issues.
-

What should we have done better?

- We will no longer allow 8+ to be in the Sprint.
 - Completely review anything larger than 5 and break it into more granular stories.
- Consider limiting/time boxing our support requests.
- Address unexpected absences in the sprint expectations.

Actions
