# Editing Requested Permissible Values - Include v4.4

If caDSR changed the name of the requested value when adding it to the database, change the name of the originally-requested value accordingly.

How to Edit Pending Marker Requests

1. On the main menu, click **New Marker Requests**.
   The Pending Markers Report displays all new permissible value requests.
2. To change the name of a new permissible value, click **Edit**.
   The Edit Marker Name page displays the current requested marker name, and the Trial Identifier for which the new permissible value was requested.

Edit Marker Name	
Trial:	NCI-2011-02137
Name:*	TGF
	Save Cancel

   Question to Submitter Page
3. Change the name to match the caDSR value, and then click **Save.**
   The value is accepted and removed from the Pending Marker Report.
