

October 28: Martin Fenner, Data-Level Metrics

SYNOPSIS:

The DataONE repository network, California Digital Library and Public Library of Science (PLOS) from October 2014–October 2015, works on a National Science Foundation-funded project to explore metrics — including citations, downloads and social media — for about 150,000 datasets. This presentation will summarize the major hurdles to make this work, the most important findings, and some ideas to go forward, including implementation as a production service.

About the NCI CBIIT Speaker Series:

The National Cancer Institute (NCI) Center for Biomedical Informatics and Information Technology (CBIIT) Speaker Series is a bi-weekly knowledge-sharing forum featuring both internal and external speakers on topics of interest to the biomedical informatics and research communities. For additional information, including past speaker series presentations, visit the [CBIIT Speaker Series page](#).

Individuals with disabilities who need reasonable accommodation to participate in this program should contact the Office of Space and Facilities Management (OSFM) at 240-276-5900 or the Federal TTY Relay number 1-800-877-8339.
