

# LexEVS Meeting Minutes - 2018.01.24

## Attendees

| Name                | Role         | Present |
|---------------------|--------------|---------|
| Haber, Margaret     | NIH/NCI      | x       |
| Fragoso, Gilberto   | NIH/NCI      | x       |
| De Coronado, Sherri | NIH/NCI      | x       |
| Safran, Tracy       | NIH/NCI [C]  | x       |
| Ong, Kim L          | IS           | x       |
| Lucas, Jason R      | IS           | x       |
| Bauer, Scott        | Mayo         | x       |
| Stancl, Craig       | Mayo         |         |
| Endle, Cory         | Mayo         | x       |
| Wynne, Robert       | NIH/NCI [C]  | x       |
| Kuntipuram, Kumar   | NIH/NCI [C]  | x       |
| Mensah, Jacob       | NIH/NCI [C]  | x       |
| Trong, Tracy        | NIH/NCI [C]  |         |
| Din, Sana           | NIH/NCI [C]  | x       |
| Kisler, Bron        | NIH/NCI [C]  | x       |
| Remennik, Lyubov    | NIH/CC/BTRIS | x       |

## Action Items

| Assigned | Description | Date Identified | Due Date | Date Completed | Status |
|----------|-------------|-----------------|----------|----------------|--------|
|          |             |                 |          |                |        |

## Agenda

|                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

|                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|-----------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| CTS2 on-line documentation update | <p>Discussion Points:</p> <p>CTS2 online API documentation on NCI Dev.</p> <ul style="list-style-type: none"> <li>• npm and node.js were installed. It was determined that the redis server is required for the API documentation service to run.</li> <li>• Cory requested to install the required redis server.</li> <li>• Jacob is looking into if we can install this redis server. Redis is currently not on the technology stack.</li> </ul> <p>Decision Points:</p> <ul style="list-style-type: none"> <li>• If Jacob determines redis cannot be installed, we will move forward migrating to the Swagger API.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                           |
| Discuss empty value sets          | <p>Discussion Points:</p> <ul style="list-style-type: none"> <li>• When to - load, represent, and search.</li> <li>• Currently these aren't loaded due to the fact their concept have no incoming Concept_In_Subset associations.</li> <li>• But the browser is representing them in the hierarchy.</li> <li>• Also, we decided long ago not to load empty value sets (as coding schemes) because it wasn't possible to search when multiple value sets including an empty value set were selected.</li> <li>• Rob suggested to not load empty value sets at all - even source asserted value sets.</li> <li>• Scott suggested there are options to manage empty value sets.</li> </ul> <p>Decision Points:</p> <ul style="list-style-type: none"> <li>• We will test this on Dev. <ul style="list-style-type: none"> <li>◦ Manually update a terminology with publish=no and set Concept_In_Subset associations and determine how this displays in the browser.</li> <li>◦ Rob will test with the FDA terminology.</li> </ul> </li> </ul> |
| Ongoing Remote API strategy       | <p>Discussion Points:</p> <ul style="list-style-type: none"> <li>• Scott asked the question - should new lexevs API calls be remote enabled? This would take additional time to accomplish.</li> </ul> <p>Decision Points:</p> <ul style="list-style-type: none"> <li>• This should be covered in the future technical EVS meetings.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| LexEVS External Users             | <p>Discussion Points:</p> <ul style="list-style-type: none"> <li>• caDSR and configuration of the remote client.</li> </ul> <p>Decision Points:</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

Risks

| # | Opened Date | Due Date | Description | Likelihood (H, M, L) | Impact | Assigned | Status | Mitigation Strategy |
|---|-------------|----------|-------------|----------------------|--------|----------|--------|---------------------|
|   |             |          |             |                      |        |          |        |                     |
|   |             |          |             |                      |        |          |        |                     |

Issues

| # | Opened Date | Description | Impact | Assigned | Status |
|---|-------------|-------------|--------|----------|--------|
|   |             |             |        |          |        |
|   |             |             |        |          |        |
|   |             |             |        |          |        |

Dependencies

| Opened Date | Description | Assigned |
|-------------|-------------|----------|
|             |             |          |
|             |             |          |

Action Item Backlog

| # | Assigned | Description | Date Identified | Due Date | Date Completed | Status |
|---|----------|-------------|-----------------|----------|----------------|--------|
|   |          |             |                 |          |                |        |
