

QueryByExampleWithNoQueryOptions Snippet(Deprecated -- removed in 6.3)

Java Code Snippet

```
public static void main(String[] args)
{
    try {
        LexEVSAApplicationService appService =
            (LexEVSAApplicationService)ApplicationServiceProvider.
                getApplicationService("EvsServiceInfo");
        Entity entity = new Entity()
        entity.setEntityCode("C1234");
        List<Entity> list = appService.search(Entity.class, entity);
    } catch(ApplicationException ex){
    }
}
```
