2018-10-23 Meeting notes

Date

22 Oct 2018

Attendees

- Unknown User (stanclcr2)
- Unknown User (endlecm)

- Unknown User (endlecm)
 Bauer, Scott (NIH/NCI) [C]
 Lucas, Jason (NIH/NCI) [C]
 Unknown User (wynner)
 Safran, Tracy (NIH/NCI) [C]
 Ong, Kim (NIH/NCI) [C]
 Unknown User (monteirofr)
 Campbell, John (NIH/NIAID) [C]

Discussion items

ltem	Resources	Notes
Logistics (Determine Meeting frequency)		 Frequency/Time/Days of week Initially every week Tuesday at 10AM Need to consider EVS Evaluation outcome. There is no definite timeline for when this will happen. Currently putting something together now (proposal) and expected by end of year. Consultant will probably ask the team/group questions. It would be good if we have this information available. Focus on gathering our data, but wait until evaluation complete before deciding timeline and next steps. Services Users Existing Architecture Future Capabilities Kim noted areas to consider: Index Search MetaT in RDF (into stardog) Value Sets
Previous Group (Tracy Notes)	Jan 11, 2018	Group should review and utilize as we proceed. (Tracy merge into roadmap)
Establish Workgroup Goals		 Documented well in the wiki page from Jan 11, 2018.
Review Roadmap and Confirm items	EVS Services and Architecture Roadmap	 Near term items highlighted to happen within the evaluation timeframe. Tooling/Tech stack/Operations evaluation Add this and details to the Roadmap (Scott/Jason)
Agree on Milestones and Goal Completion time		 Initial plan depends on the EVS evaluation.
Create Milestone and Deadline calendar		Craig/Tracy to work on this.
Review Architecture Diagram	EVS Architecture	 Reviewed and updated with group.

Action items
