2019-01-30 Retrospective - Sprint 100

Date	30 Jan 2019
Participants	Bauer, Scott (NIH/NCI) [C], Endle, Cory (NIH/NCI), Unknown User (stanclcr2)

Retrospective

What did we do well?

- Doing well managing branches and builds.
- Selecting Jira issues that have real impact (logging additions).

What should we have done better?

- Need to consider ways to work on support issues without impacting our sprint work.
- We need to manage the story points for a sprint. Try not to go over our average velocity without reviewing.
- When we plan for release candidates, we should have more story points for assisting with install/testing issues.
