

# 2019-01 Monthly Status Report

## Accomplishments this month

1) As last month, provided support to SPIE challenges

## Planned for next month

Work on leaderboard error with SPIE challenge and  
familiarize self with challenge ecosystem after temporary hand-off from Samarth Nandekar to Andrew Beers.

So we can only see our own scores right	So we can only see our own scores Because there are only our own scores in the email. Where can we find the leaderboard of all participant	Closed	07 - January - 2019	14 - March - 2019
When can we see the test leaderboard When and where should we submit our paper	Hi I am sorry to bother you. However we have some questions about the challenge. We have received the emails about our test scores several days ago. However we couldnt see the test leaderboard until now. We are wondering when we can see the ranking. Meanwhile since the homepage invited every team to submit a relevant paper on the algorithm we are wondering when and where we may submit it. We would appreciate it if you could help us on the questions above. Best wishes.	Closed	08 - January - 2019	14 - March - 2019
