Life Sciences Distribution (LSD) 1.2 Installation Wizard: ncia

Installation Options

Step 20 of 46

Configuring your MySQL database connection

The information you enter below will connect you to an existing MySQL database.  
localhost is NOT a recommended value for Database Host Name.  
The 'Database User' must have full access to 'Database Name'. It's highly recommended you contact your database administrator to obtain this information.  
WARNING: If installing all components or the database component: all database objects for 'Database Name' will be dropped and recreated during the installation process.  
For detailed descriptions on each of the properties below, see the Database Settings section at <https://wiki.nci.nih.gov/x/koQYAQ>

Database Host Name: localhost

Database Port: 3306

Database Name: nciadb

Database Application User: ncia\_user

Database Application User Password: \*\*\*\*\*
