2019-05 Monthly Status Report

Accomplishments this month
1) Andrew completed the AAPM competition evaluation script and I will study it to be familiar.
2) Work with Keyvan Farahani to address security vulnerability for the MICCAI 2019 challenge.

Planned for next month
1) Update Codalab documentation on NCI website (need to discuss with you all)
2) Support tentative QIN Breast challenge as needed
3) Integrate multiple help options dropdown for all challenges
4) Fork Codalab repo and generate baseline Codalab for QTIM
5) Work with Keyvan Farahani to create evaluation scripts and other requirements for the upcoming challenge debut.
