

Managing Workflow Items 6.5

NBIA role required to use this feature: NCIA.SUPER_CURATOR

For more information about roles, see [Creating a New NBIA User](#).

A workflow is a business process that, in the case of NBIA, an image series must pass through before it is published. Since it is a business process, these steps must be defined first within an organization. NBIA allows you to change the visibility status of an image series. This visibility change is part of the definition of a workflow item. Workflow items can also trigger a web service call to a URL. When you define a workflow item, you specify a name for it, the type of action that will take place during it (such as a visibility change), which image collection and site are involved, and the URL of a web service if the information resulting from this workflow item should be sent to one.

You can [create](#), [edit](#), and [delete](#) workflow items

Creating a Workflow Item

To create a workflow item

1. Select **Admin > Manage Workflow Items**.
The Manage Workflow Items page appears.

Manage Workflow Items ?			
Create Workflow			
Name	Collection-Site	Edit	Delete
LDC2	LDC-IDRI-LDC CTP		
New	TinNew2-TinNew2		
TinNew3 New Series	TinNew3-TinNew3		
New Series	TinNew2-TinNew2		
Vis Change	TinNew2-TinNew2		
LDC	LDC-LDC CTP		
ISPY	ISPY-NCICB		

2. Click **Create Workflow**.
The Workflow Item page appears.

Workflow Item			
Name:	<input type="text"/>		
Type	<div>Visibility Change ▾</div>		
Collection	<div>BCMES28Q ▾</div>	New Collection for List	<div><input type="text"/></div> Add to Collection List
Site	<div>BCMES28Q ▾</div>	New Site for List	<div><input type="text"/></div> Add to Site List
URL	<input type="text"/>		
<div>Save Cancel</div>			

3. In the Name box, specify a name for the new workflow item. The name cannot be longer than 50 characters.
4. From the Type list, select **Visibility Change** or **New Series**.
 - Select the *Visibility Change* option when editing an existing workflow item. A visibility change occurs when the workflow item triggers a web service call to the URL you have entered in the URL field on this page.
 - Select the *New Series* option if you want the result of this workflow item to create a new image series. You can add this new series to a collection in the next step.
5. From the Collection list, select an existing image collection to which this workflow item should apply. Existing image collections are in the Collection list. If you need to create a new collection to apply to this workflow item, enter it in the New Collection for List box and then click **Add to Collection List**.
6. From the Site list, select an existing site. Existing sites are in the Site list. If you need to create a new site to apply to this workflow item, enter it in the New Site for List box and then click **Add to Site List**.
7. To send information in this workflow item to a web service, enter the web service's URL in the URL box.
8. Click **Save**.
The new workflow item appears on the Manage Workflow Items page.

Editing a Workflow Item

You can edit a workflow item's name and collection/site.

To edit a workflow item

1. Select **Admin > Manage Workflow Items**.
The Manage Workflow Items page appears.

Manage Workflow Items ?			
Create Workflow			
Name	Collection-Site	Edit	Delete
LIDC2	LIDC-IDRI-LIDC CTP		
New	TinNew2-TinNew2		
TinNew3 New Series	TinNew3-TinNew3		
New Series	TinNew2-TinNew2		
Vis Change	TinNew2-TinNew2		
LIDC	LIDC-LIDC CTP		
ISPY	ISPY-NCICB		

2. Click the in the row of the workflow item you want to edit.
The Workflow Item page appears, showing the values already set for the workflow item you selected.

Workflow Item ?			
*Name:	<input type="text" value="LIDC2"/>		
Type	<input type="text" value="New Series"/>		
Collection	<input type="text" value="LIDC-IDRI"/>	New Collection for List	<input type="text"/>
Site	<input type="text" value="LIDC CTP"/>	New Site for List	<input type="text"/>
*URL	<input type="text" value="http://www.test2.com"/>		
Save	Cancel	Add to Collection List	Add to Site List

3. Edit the name, type, collection, site, or URL as needed, consulting [Creating a Workflow Item](#) for details on these steps.
4. Click **Save**.

Deleting a Workflow Item

To delete a workflow item

1. Select **Admin > Manage Workflow Items**.
The Manage Workflow Items page appears.

Manage Workflow Items ?			
Create Workflow			
Name	Collection-Site	Edit	Delete
LIDC2	LIDC-IDRI-LIDC CTP		
New	TinNew2-TinNew2		
TinNew3 New Series	TinNew3-TinNew3		
New Series	TinNew2-TinNew2		
Vis Change	TinNew2-TinNew2		
LIDC	LIDC-LIDC CTP		
ISPY	ISPY-NCICB		

2. Click in the row of the workflow item you want to delete.
You are prompted to confirm the deletion.
