

Gliffy Diagram Demonstration

To create a Gliffy diagram:

1. In the page you want to change, click **Edit**.
2. At the place on the page where you want the diagram to appear, type as much of the following as needed to open the macro browser.

```
{gliffy
```

3. Select the Gliffy Diagram macro. The Gliffy dialog box appears.
4. Select an option and click **Create**. The Gliffy editing interface opens.
5. Construct the diagram using the applicable options.
6. Click **Save**.
7. Click **Back to Confluence**. The diagram appears on the wiki page.
