

Getting Started

Anyone can view the NCI Wiki. In the Confluence header, click the icon to the left of the Search NCI Wiki box. Select **Spaces**. A list of the wiki spaces that you can view appears.

To edit pages:

1. If you do not have an account, refer to [Getting an NCI Wiki Account](#).
2. In the list of spaces, select the link for the space that interests you. The *wiki home page* opens for that space.
3. Examine the links in the hierarchy of pages for this wiki space, in one of the following ways:
 - Some wiki spaces have a list of links reflecting a whole page family within the home page itself.
 - Some wiki spaces have such a list in the sidebar.
 - Some wiki spaces have a list of child pages at the bottom of every page.
 - All wiki spaces have this option: Click the Tools (...) icon above the page title, on the right side of the page. Select **View in Hierarchy**.
4. Select the link for a page that interests you.
5. At this point, you have the following options:
 - If you want to comment on the page, click **Write a Comment** at the bottom.
 - If you want to add a child page for a subtopic, click the **Create Content** icon in the upper right, select a template, and click **Create**.
 - If you want to edit the page, click **Edit**.
6. Whether you are adding a comment, adding a page, or editing a page, type just as you would in Microsoft Word. For more information, refer to the following pages:
 - [Adding a Page or a Blog Post](#)
 - [Editing a Page](#)
7. When you are finished, click **Save**.
8. If you need more help, contact NCIAppSupport@nih.gov.
