2021.03.16 - Report Exporter New Features Review with Editors

Attendees

Name	Role
Remennik, Lyubov	NIH/NCI
hahn-Dantona, Liz	NIH/NCI [C]
Quinn, Theresa	NIH/NCI [C]
Garrett, Alpha	NIH/NCI [C]
Whiteman, Lori	NIH/NCI [C]
Bauer, Scott	Mayo
Stancl, Craig	Mayo
Endle, Cory	Mayo

Agenda

Report Exporter Planning Feature Review with Editors

Survey	- Review prototype - Lori and others thought the survey looked fine. - She didn't think having the survey automatically appearing would be user friendly.
Roles	- Roles workflow prototype "all or none roles for concepts you put in" choice. Users may not want to choose specific roles for each concept. - We don't need to see what roles are available. We can have an option to bypass this page. - Sort the roles listing - top should have roles with most concepts (ranking) - Search by name of Roles - Notify user if concept doesn't have roles. Put message on page if concept(s) don't have roles - Keep it simple - Every concept may not have roles. - Output - concept name and concept code columns should all be population (so user can sort on column)
Associations	- Associations workflow - Lyuba suggested this should be same design as above. - Sort on associations that are shared and rank (like above)
