Goals

Discussion items

Time	Item	Who	Notes
	Java 11		- Briefly brought up last meeting. Any needed followup? - Put in a JIRA item for LexEVS. Feature request/Improvement - low - Already one in for the browsers - Already one if for Rest stack - Java 8 end of premier support March 2022
	Meta on EVSRest		Nothing new - ongoing - Issues - show source hierarchy - show source only synonyms
	Metrics Dashboard		- Sumo logic - still working on domain information - not happy with current options - Lyubov's feedback - Drop down for sources to report - Need to export to report - How to break down reports - new users per what time period - How to ingest old logs - How to access - ATO process - since sumo didn't actually go through process - We need a project name to put in ATO spreadsheet for Eric Scott - EVS Statistical Dashboard - Jason will review process for EVS Exporter that they went through with Sharif. - Manish claims platform ATO - Need very simple instructions on how to approach and use dashboard - How to administer user accounts - We ask specifically for user accounts for specific users - We would have admin accounts - We would say which dashboards are visible to certain users - Process would need documentation
	Sitestats		- Not been very responsive with fixing logs previously - Issues with log processor broken - Will rely on same person to get any historical logs
	Future		- Still no word on Kumar replacement - Any information given to Mayo on future plans - Option year extended to 2022, Aug 30 - Meeting with Lyuba on Friday - Touching base with PIIs they have worked with previously - Any information given to MSC on future plans - No news - No future information for Leidos
	Wiki		Possibly being retired - still waiting for hard news
