Important Remaining Issues

The following are tracker numbers and descriptions of unresolved issues.

Feature	Symptom	Workaround	Jira Tracker Number
Download Collection > Add Components using Public IDs	Errors: String Buffer too small when pasting in a long list of Form Public IDs.	- Option 1: Put the CDEs into your User Cart and "Add Components from Cart" - Option 2: Paste a list of 16 public ids separated by spaces and click "Add". This can be repeated as many times as needed.	DSRMWS-1312
Download Collection > Request Download Generation	Date/Time Latest File Attached doesn't automatically update.	Click on the Download Collection Header in the tree to refresh the date and see the attached ALS file.	DSRMWS-1337
Download Collection > Request Download Generation	Email for "Legacy Form Builder Excel Format" and "ALS" download collection are inconsistent.	The ASL Collection email contains the User ID of the person who generated the file, the Legacy Form Builder Excel email contains the user name.	DSRMWS-1264
ALS Format	Generating collections of CDEs doesn't work.	(No Workaround.)	DSRMWS-1311
ALS Format	FieldOID is visible after loading form into RAVE.	Field level isRequired should be set based on Question isMandatory, and FormOID should be set to "isVisible = False".	DSRMWS-1334
ALS Format	Duplicate codedData values in a DataDictionary cause errors when loading into RAVE.	When duplicate values are found, create an entry in the Field's DataDictionary for the first one, ignore the rest.	DSRMWS-1340
ALS Format	Download Collection UAT Documentation does not match Sprint 1.20 UIs.	(No Workaround.)	DSRMWS-1230
ALS Format	The value for isRequired is incorrect.	Manually edit ALS after loading.	DSRMWS-1333
ALS Format	Forms with a Trademark or Copyright symbol are not being escaped properly in Form Name and cause an errors in upload into RAVE.	Manually edit ALS or Form to remove symbol.	DSRMWS-1294
